

## JAL Group Announces Flight Frequency and Fleet Plans for FY2014

**TOKYO January 22, 2014:** JAL Group (JAL) today announced its flight frequency and fleet plans on both international and domestic routes for fiscal year 2014 (ending March 31, 2015).

In regards to the airline’s international network, with the addition of international flight slots at Tokyo (Haneda) Airport, JAL will begin operating new day-time nonstop flights from March 30, 2014, between Haneda and London, between Haneda and Paris, and between Haneda and Singapore as well as between Haneda and Bangkok. Additionally, the airline will use late night and early morning slots to launch new service between Haneda and Ho Chi Minh City. JAL will strive to improve customer accessibility and meet travel demand in overseas gateways to connect with domestic cities.

Meanwhile, at Tokyo (Narita) Airport, with expected growth of travel demand between North America and Asia, JAL will increase weekly round-trip flights from 7 to 14 between Narita and New York. Additionally, the airline will increase flights frequency from 3 to 4 round-trip flights weekly between Narita and Moscow to meet strong growth of business demand.

Furthermore, JAL plans to increase the number of available revamped aircraft (JAL SKY SUITE 777/767), and in particular, expand the availability of aircraft featuring JAL SKY WIDER in Economy Class. The airline has also decided to operate aircraft with fully-flat seats or shell flat seats in Business Class cabins on all medium and long haul routes to and from Southeast Asia and Honolulu by the early Second Half of FY2014 in order to further deliver improved service to customers.

In regards to the airline’s domestic network, JAL has decided to double flight frequency between Haneda and Yamagata, and the airline will also resume six domestic routes based on a thorough review of flight schedules and operations within the airline’s network so that customers will be able to connect more conveniently.

# The following plans and schedules are subject to government approval.

### 4. Improving the quality of products and services on international routes

JAL SKY WIDER is now being installed into Boeing 777-300ERs and Boeing 767-300ERs (JAL SKY SUITE 777/767). Highlights of the JAL Economy Class seat include increased pitch and a slim-style seatback design resulting in approximately 10 cm (Max.)(\*11) more legroom than the present seat pitch. The number of JAL SKY SUITE 777/767 aircraft with JAL SKY WIDER installed will increase to 22 aircraft by the beginning of July from the current 10 aircraft (as of Jan. 22). The airline is striving to deliver a more enjoyable experience and soothing rest to customers on every journey.

(\*11) Specifications for select seats are different.

JAL began to introduce the JAL SKY SUITE 767 from December 2013, and the airline will now also begin operating its Boeing 787-8s on medium and long haul routes of Southeast Asia and Honolulu routes. The airline will also offer its fully-flat seats or shell flat seats in Business Class cabins on all medium and long haul routes to and from Southeast Asia and Honolulu by early Second Half of FY2014.

### 5. New services to and from Osaka (Kansai) and Nagoya (Chubu)

Regarding to JAL Group Mid-Term Management Plan for fiscal years 2012 to 2016(year ending March31, 2017), the airline plans to allocate resources on operations to medium and long haul routes such as Europe, North America and Southeast Asia, and it will further develop its network to provide more convenience and enjoyable travel experiences to customers. JAL is looking forward to enhancing its network with the addition of international flight slots at Haneda Airport from FY 2014. Moreover, JAL plans to improve services to and from Osaka (Kansai) and Nagoya (Chubu) in FY2015. The airline is also considering to advance this plan with any adjustments of new aircraft launches and will announce more details as soon as they have been decided.
