

JAL SKY Wi-Fi Service Onboard Its Boeing 767-300ERs and Boeing 787-8s to Be Expanded onto More International Routes

TOKYO February 26, 2015: Japan Airlines (JAL) has been introducing in-flight Wi-Fi service since July 2012 with Boeing 777-300ERs (*1). The airline will start to include Boeing 767-300ERs and Boeing 787-8s to introducing JAL SKY Wi-Fi service on more Europe, North America and long-haul Asia routes from March 3, 2015.

Under the theme of “Embrace new Challenges,” JAL is striving to introduce more innovative products and services to its customers.
