

JAL Power Station Provides Battery Charging Service near Boarding Gates at Osaka (Itami) Airport

~ Provide customers with more convenience for charging smartphone or notebook before boarding ~

Tokyo May 22, 2015: Japan Airlines (JAL) has been introducing various services to deliver innovative travel experience to customers when they fly with JAL. Starting May 28, 2015, the airline will install power stations near select boarding gates at Osaka (Itami) airport to provide customers with more convenience. JAL will consider expanding this new service to more domestic airports in Japan.

JAL is embracing new challenges to serve customers with more innovative products and high-quality services.

Embrace new Challenges **JAL**
