

JAL×AEON PET to Operate JAL“WAN-WAN” TOUR

~ Travel to Okinawa with Your Pet Dog in Cabin ~

Tokyo Dec 8, 2017 - Japan Airlines Co., Ltd. and AEON PET Co., Ltd. (Head Office: Ichikawa City, Chiba Prefecture, Representative Director, President: Manabu Ooshima, hereinafter “AEON PET”) today announced the operation of a 4-day tour package to Okinawa in March 2018, using a charter flight for customers who wish to fly with their pet dogs in the main cabin of the aircraft.

Over time, the carrier has received various comments from pet owners regarding the inability to travel as they are unable to leave their dogs at home. In order to meet demands to provide pet-friendly travel services, the tour allows customers to carry dogs onboard while providing hotels where pets will be welcomed. Hotel accommodations will be provided at Okinawa’s “Okuma Private Beach & Resort,” which offers private beaches and a variety of marine activities. As a perk, all participants will receive a complimentary copy of the `Okinawa Guide Map` which will indicate locations that can accommodate dogs at their facilities.

The tour will be supervised by AEON PET, as the company provides extensive experience and knowledge regarding pet travel. An accompanying veterinarian will help support the tour and will care for the dogs’ health, allowing owners to travel with peace of mind.

JAL and AEON PET will continue to challenge various activities to meet diverse requests from customers to support lifestyles of customers and their pets.
