

## JAL Announces International Fare Fuel Surcharge for Tickets Issued Between August and September 2019

**Tokyo, June 19, 2019** – Japan Airlines (JAL) has requested for approval from the Japanese Ministry of Land, Infrastructure, Transport and Tourism (MLIT) to set the level of fuel surcharge on international passenger tickets purchased in Japan between August 1 and September 30, 2019.

JAL sets fuel surcharge levels bimonthly based on the 2-month average price of Singapore kerosene-type jet fuel. The price of Singapore kerosene-type jet fuel during the two month period of April and May 2019 averaged US\$81.91 per barrel, which accounted for 9,073 yen in the average exchange rate of 110.77 JPY/USD during the same period.

As a result, with reference to the fuel surcharge benchmark list for FY2019 in Japanese yen, this corresponds to [Zone D](#). From August 1 to September 30, it will range from 1,000 yen on a Japan – Korea ticket to 14,000 yen on a Japan – USA ticket per person per sector flown, for travel originating in Japan.
