1. KANOSUKE HIOKI POT STILL 2024 LIMITED EDITION

KANOSUKE HIOKI POT STILL 2024 LIMITED EDITION is the first batch derived from KANOSUKE HIOKI POT STILL, a Japanese-style pot still whisky using unblended whisky that was cask-matured in KANOSUKE DISTILLERY’s dunnage warehouse. This whisky uses unmalted barley and malted barley as ingredients at the HIOKI DISTILLERY and is stored in brand new American white oak casks, bourbon casks, and shochu charred casks. The harmony of bitterness and sweetness sets it apart from the standard product.

This whisky features the aroma of crème brûlée, fresh oak, apricots, and green plums, blended with vanilla, caramel sauce, charred oak, cocoa, and matcha flavors that unfold on the palate, giving a full-bodied, sweet-bitter finish.

3. KANOSUKE Distillery

Founded in 1883, KOMASA JOZO, which continued to produce shochu at the HIOKI DISTILLERY in Kagoshima Prefecture, created Japan's first barrel-aged shochu, aiming to spread this around the world. Inheriting this intention, Yoshitsugu Komasa, the fourth generation, launched KANOSUKE DISTILLERY in 2017 along Fukiage Beach in Hioki City, Kagoshima Prefecture. His intention was to apply the authentic 60-year-old shochu barrel-aging technology to create whisky, a common global distilled liquor, to attract people around the world. Based on Kagoshima's long history of authentic shochu distilling techniques, the distillery applies its expertise in fermentation, distillation, barrel-aging, and blending to produce mellow whisky with all its heart and soul while overlooking the magnificent scenery of the East China Sea and Fukiage beach.
