JAL Group Announces FY2026 Winter Schedule for International Cargo Network

- Launching Narita–Los Angeles Codeshare Operations in Partnership with Atlas Air -

Tokyo, JAPAN – The JAL Group has announced the Winter schedule of its international cargo freighters for the fiscal year 2026. Effective October 2, JAL will launch new codeshare operations on the Narita–Los Angeles route utilizing Boeing 747 freighters (“747F”) in partnership with Atlas Air.

In recent international air cargo markets, demand for high-quality, flexible transportation continues to surge, driven by global supply chain restructuring, advancements in generative AI and semiconductor industries, and expanding investment in digital infrastructure.

In addition to cargo space on passenger flights and its network of owned Boeing 767 freighters (“767F”), JAL dynamically and flexibly leverages large freighter capacity (such as 747Fs) through strategic partnerships with carriers including Atlas Air, Kalitta Air, and Cargolux Airlines to respond to robust demand between Asia and North America/Europe.
