

**JAL Group Announces Updates to FY2026 Summer Schedule for International Cargo Network**

Tokyo, JAPAN – The JAL Group today announced revisions to the FY2026 first-half schedule for its international freighter operations, effective from June 15, 2026, due to aircraft rotation adjustments required for scheduled maintenance. On the Narita–Hong Kong route, where JAL’s own Boeing 767 freighter service will be suspended, capacity will be maintained through cargo codeshare operations with Kalitta Air. Furthermore, by combining the Narita–Hong Kong service operated by Kalitta Air with the Narita–Chicago route (*1), JAL will continue to meet robust demand between Asia and North America. For flight services from September 16 onward, as well as certain routes and periods still under adjustment, further updates will be provided as soon as decisions are finalized.

JAL remains committed to maintaining stable and flexible air cargo capacity, enhancing customer convenience, and contributing to the resolution of social issues and the sustainable development of logistics infrastructure.
